

## HuRis Cloud Services **EXPENSE MANAGER**

an **SAP SuccessFactors**  add-on

The **Expense Manager** provides just the right, easy-to-use functionality for the employee, the approving manager as well as the HR/Finance role for claiming your expenses!

The **Expense Manager** supports your complete expense processes within the rules of your corporate policy and legislation. Different types of expenses for different groups of employees and with different validation rules are possible. Employees can claim their expenses easily including the right receipts and a Google Maps integration for calculation distances.

Save a lot of time and money and make the expense management process much quicker and error-free!
